**PRIMARY HEALTH MEDICAL GROUP NAMED
ONE OF TEN BEST PLACES TO WORK IN IDAHO 2010.**

Boise, April 9, 2010 – Primary Health Medical Group was recently announced as one of the ten best places to work in the state of Idaho in 2010 among large employers (100+ employees). The Best Places to Work in Idaho award reflects exceptional performance in the areas of Compensation and Benefits, Employee Growth and Development, Work-Life Balance, Workplace Environment, and Company Management. Based on the results of employee surveys, an Index of Excellence for each of these five dimensions of employee satisfaction was created. This is the first year that Primary Health Medical Group has applied for the distinction and the company came in 9th among all participating companies in the state.

When asked if being a “best place to work” was a tough goal to achieve in challenging economic times, David Peterman, MD, President of Primary Health Medical Group replied, “It is our goal to be the best place to work in all economic conditions. We would not have had the successful year we did in 2009 without our employees believing this was a great place to work.”

Boise-based Primary Health Medical Group is a multi-specialty medical group that was created by physicians who have practiced in Idaho for more than twenty years. The group sees over 200,000 patient visits a year through 11 clinics located in Boise, Meridian, Eagle, Nampa, and Caldwell. The majority of the clinics offer appointment family practice and urgent care services and are staffed by family practitioners, physician assistants and nurse practitioners. The group also has physicians in pediatrics, obstetrics and gynecology, dermatology, occupational medicine, and ear, nose, and throat.
